Investment Philosophy

We follow a time-tested value investing process and conduct bottom-up fundamental research to identify attractive and underpriced equity investments for the portfolio. GreensKeeper believes in buying an interest in a quality business for less than its true worth or *intrinsic value*. That discount provides us with our *margin of safety* to safeguard our clients' investments.

Aversion to Leverage

Aversion To Leverage : We avoid the use of leverage. As a result, we are never forced to sell when market conditions are difficult (and stocks are undervalued).

Our Best Ideas

Only our best ~20 ideas find their way into the Value Fund. We prefer to assume shorter term volatility in exchange for what we expect will be longer-term outperformance.

How We View Risk

We reject the premise that volatility is the proper way to define and measure risk. Instead we believe that risk is best defined as the risk of a permanent loss of our clients' capital.
